ITI NEWS – FOR IMMEDIATE RELEASE

ITI is Proud to be Named Siemens USA's Small Business Supplier of the Year

Milford OH, November 29, 2022 - Global interoperability solution provider [International TechneGroup Incorporated \(ITI\)](http://www.iti-global.com), is pleased to announce that they have been named Siemens USA's Small Business Supplier of the Year for 2022.

For the sixth year in a row, Siemens has recognized small and diversely owned businesses that provide outstanding work and support in their complex procurement processes. International TechneGroup Inc., develops products as an OEM supplier for Siemens, and provides CAD and PLM migration and implementation services.

As a Siemens Teamcenter development partner, and developer of the AutoCAD, Creo, Inventor, and SOLIDWORKS CAD integrations, ITI is uniquely qualified to assist with the Teamcenter CAD integration and implementation needs of the Siemens customer base. The ITI integration products provide a bridge between the chosen design system and Teamcenter as the system of record, enabling the management of data within Teamcenter with minimal effort and improved efficiency, while allowing users to focus on product development.

ITI understands how Teamcenter works with the CAD data integration software, as well as any nuances and specific data management requirements. This has enabled ITI to develop a step-by-step, scalable and extensible migration methodology to ensure that customer PLM migrations and implementations are completed effectively and in-line with the needs of the business.

Peter Heath, PLM Business Development Manager at ITI, commented, *"It is an honor to be recognized by Siemens as the 2022 Small Business Supplier of the Year, and accept this award on behalf of the entire ITI team that makes it all happen. Siemens really understands that all of the partners are part of what it takes to create the environment to make Teamcenter successful. They recognize that we are experts in our niche, yet important to the overall success. This award really reinforces the relationship that we have with Siemens."*

About ITI, a Wipro company

International TechneGroup Inc. began in 1983 with a mission to help manufacturers drive innovation and time to market by applying computer-aided product development to engineering problems. Today, ITI specializes in conversion, integration, validation and migration solutions for product data and related systems. Our customers recognize the value in having a trusted solution partner that provides more than just software. ITI solves complex product data interoperability problems so that the world's leading manufacturers can focus on making great products. In 2019 ITI became a wholly owned subsidiary of Wipro Limited, a leading global information technology, consulting, and business process services company. ITI operates within the Wipro Engineering business that provides customers with a platform to innovate and engineer the next generation of products and platforms at scale.
