

# DEXcenter Collaboration Made Easy

DEXcenter provides partner and supplier collaboration with managed secure file transfer and CAD process automation for multi-CAD and Model Based Enterprise scenarios. DEXcenter is a standards-driven, easy-to-use solution that can be integrated with PLM or other enterprise applications on a vendor-neutral platform.

## Native

- CATIA V4
- CATIA V5
- Creo
- Inventor
- NX
- SOLIDWORKS

## Neutral

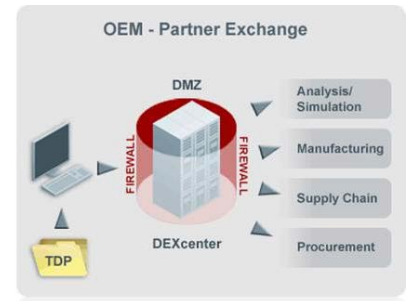

- DXF/DWG
- IGES
- JT Open
- Parasolid
- SAT
- STEP
- 3D PDF

## Platforms

- Windows
- Linux

- Translate native CAD into neutral and other native formats
- Evaluate CAD models for manufacturing
- Add intellectual property and export regulatory markings to CAD models
- Document ECO changes by comparing different model revisions
- Create and verify technical data packages

Corporate product data is your most valuable asset, yet it is frequently put at risk. When exchanged through DEXcenter, proprietary data is encrypted to prevent interception. Records of every exchange are maintained to validate what was sent, when it was sent and when it was received.

*“DEXcenter’s consistency and reliability translates into improved process efficiency and significant time savings.”*

- K.J. Kim, Samsung Electronics, Inc.

### Process Automation Features:

- Hundreds of CAD automation tasks and workflows available
- Run CAD system, CADfix, Proficiency and other translators
- Create ECO documentation with 3D PDF reports
- Check producibility for unmanufacturable or costly model issues
- Compare and validate derivative CAD files by checking for deviations
- Adapt models to meet customer requirements and protect intellectual property
- Automatically create and validate technical data packages
- OEM/supplier large file transfer (TDP Automation) for Transmit-only sessions
- PLM/CAD license cost savings securely enables external file sharing

### Exchange Features:

- Easy to use, push-button data exchange
- Multi-CAD support
- Secure encrypted data transmission
- ITAR/EAR regulatory compliance
- Traceability, tracking and reporting
- SOA for PLM and enterprise system integration

### About ITI, a Wipro company

ITI is the global leader providing reliable interoperability, validation, and migration solutions for product data and related systems. ITI solves complex product data interoperability problems so the world’s leading manufacturers can focus on making great products. ITI is a wholly owned US-based subsidiary of Wipro, Ltd, and exists within the Wipro Engineering business. Wipro Engineering provides customers with a platform to innovate and engineer the next generation of products and platforms at scale.
